Smart Factory KPI Monitoring Dashboard

A simulated MES-style manufacturing analytics dashboard for monitoring OEE, yield, UPH, downtime, and defect performance.

1. Factory Overview 2. OEE Loss Breakdown 3. Downtime Root Cause 4. Yield and Defect Analysis 5. Automated Daily Report

OEE Loss Breakdown

This section decomposes OEE into Availability, Performance, and Quality to identify whether production losses are mainly caused by downtime, speed loss, or quality loss.

OEE

79.75%

Availability

90.62%

Performance

91.42%

Quality

96.27%

Availability, Performance and Quality by Line
